Car Mat in Malaysia*

# How is Traditional Car Mat Destroying Your Car?

*You are used to it, but does not mean that you are safe from using it!*

Deformed easily

Easy shifting

Home for bugs and roaches

Keeps dirt, smell and moisture

Not fully covered

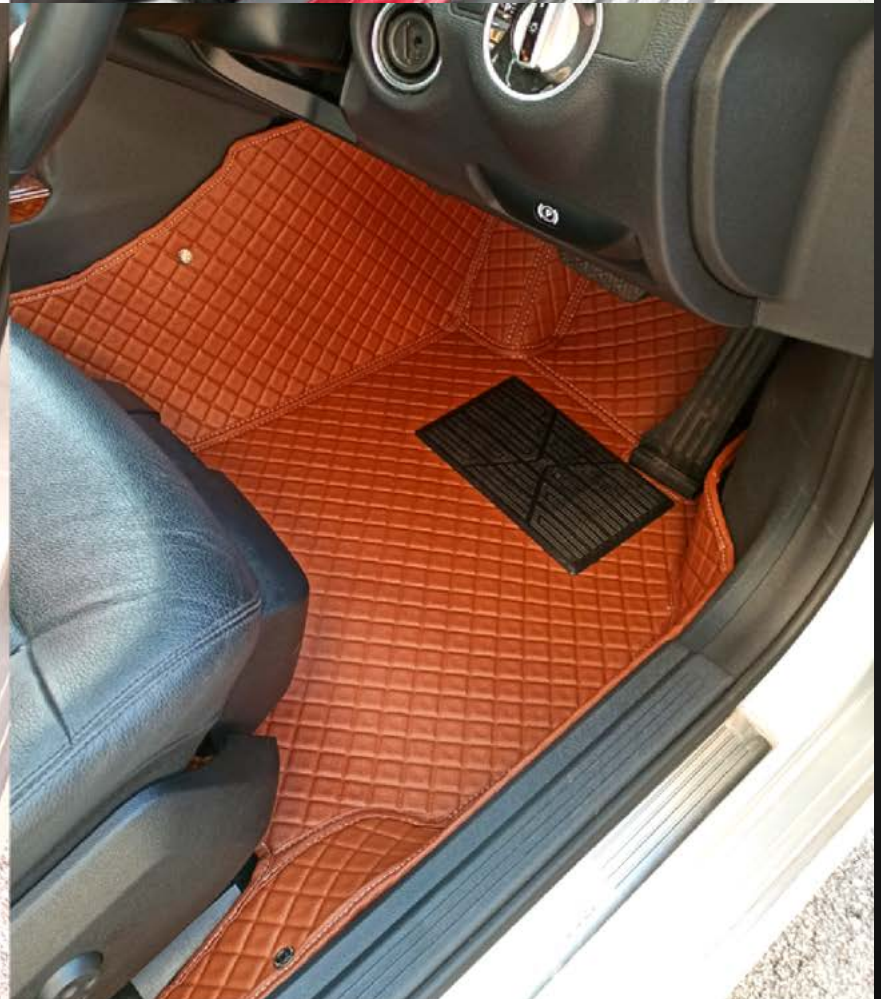

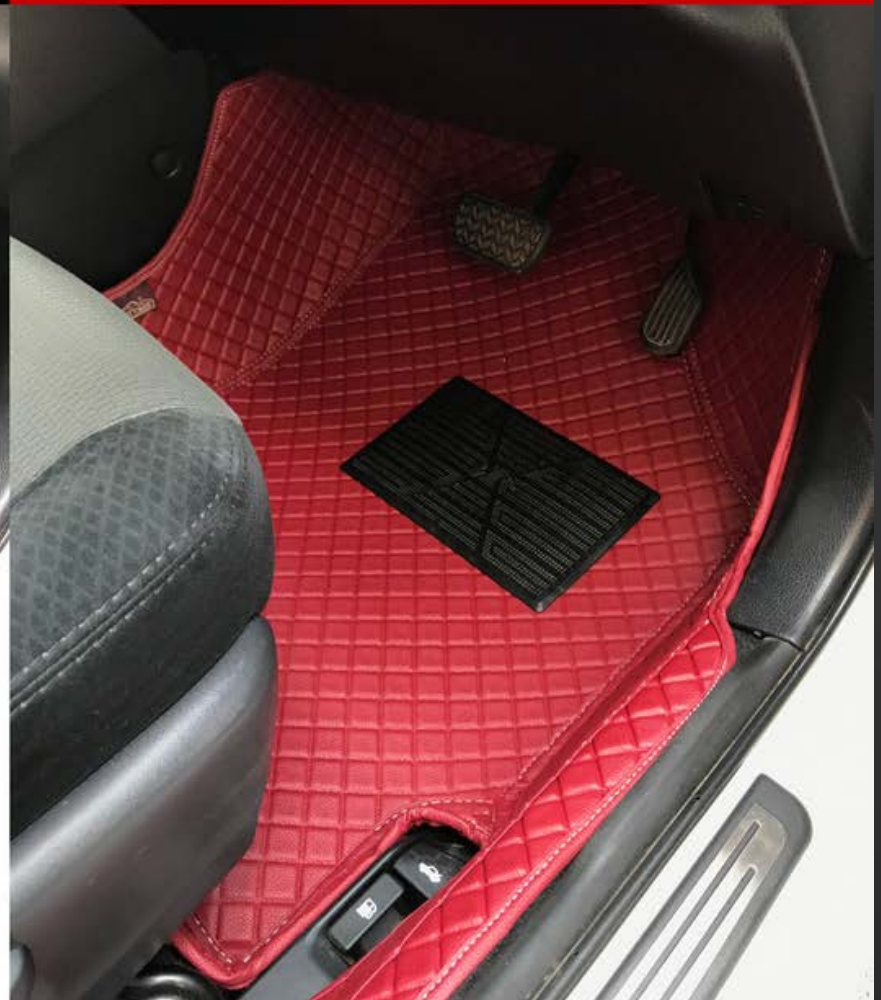

# 1 *Not Fully Covered*

Traditional car mat is incapable of providing total protection to your car's floor, thereby leaving the floorboard vulnerable to dirt, dust and spills.

**Not covered**

**Fully covered**

## 2 *Home for Roaches*

Did you know? Due to enormous reproductive capabilities, there are about hundreds of bugs and roaches in an ordinary car, more than you have ever imagined.

Traditional car mat serves as a perfect environment for the breeding of insects as it gets moist and messy easily and it is difficult to be cleaned.

### 3 *Deformed Easily*

Traditional car mat mainly uses PVC and rubber material which easily gets deformed over time. Additionally, PVC mat is not designed to withstand sun heat and may release toxic substance into your car interior environment.

## **4** *Easy Shifting*

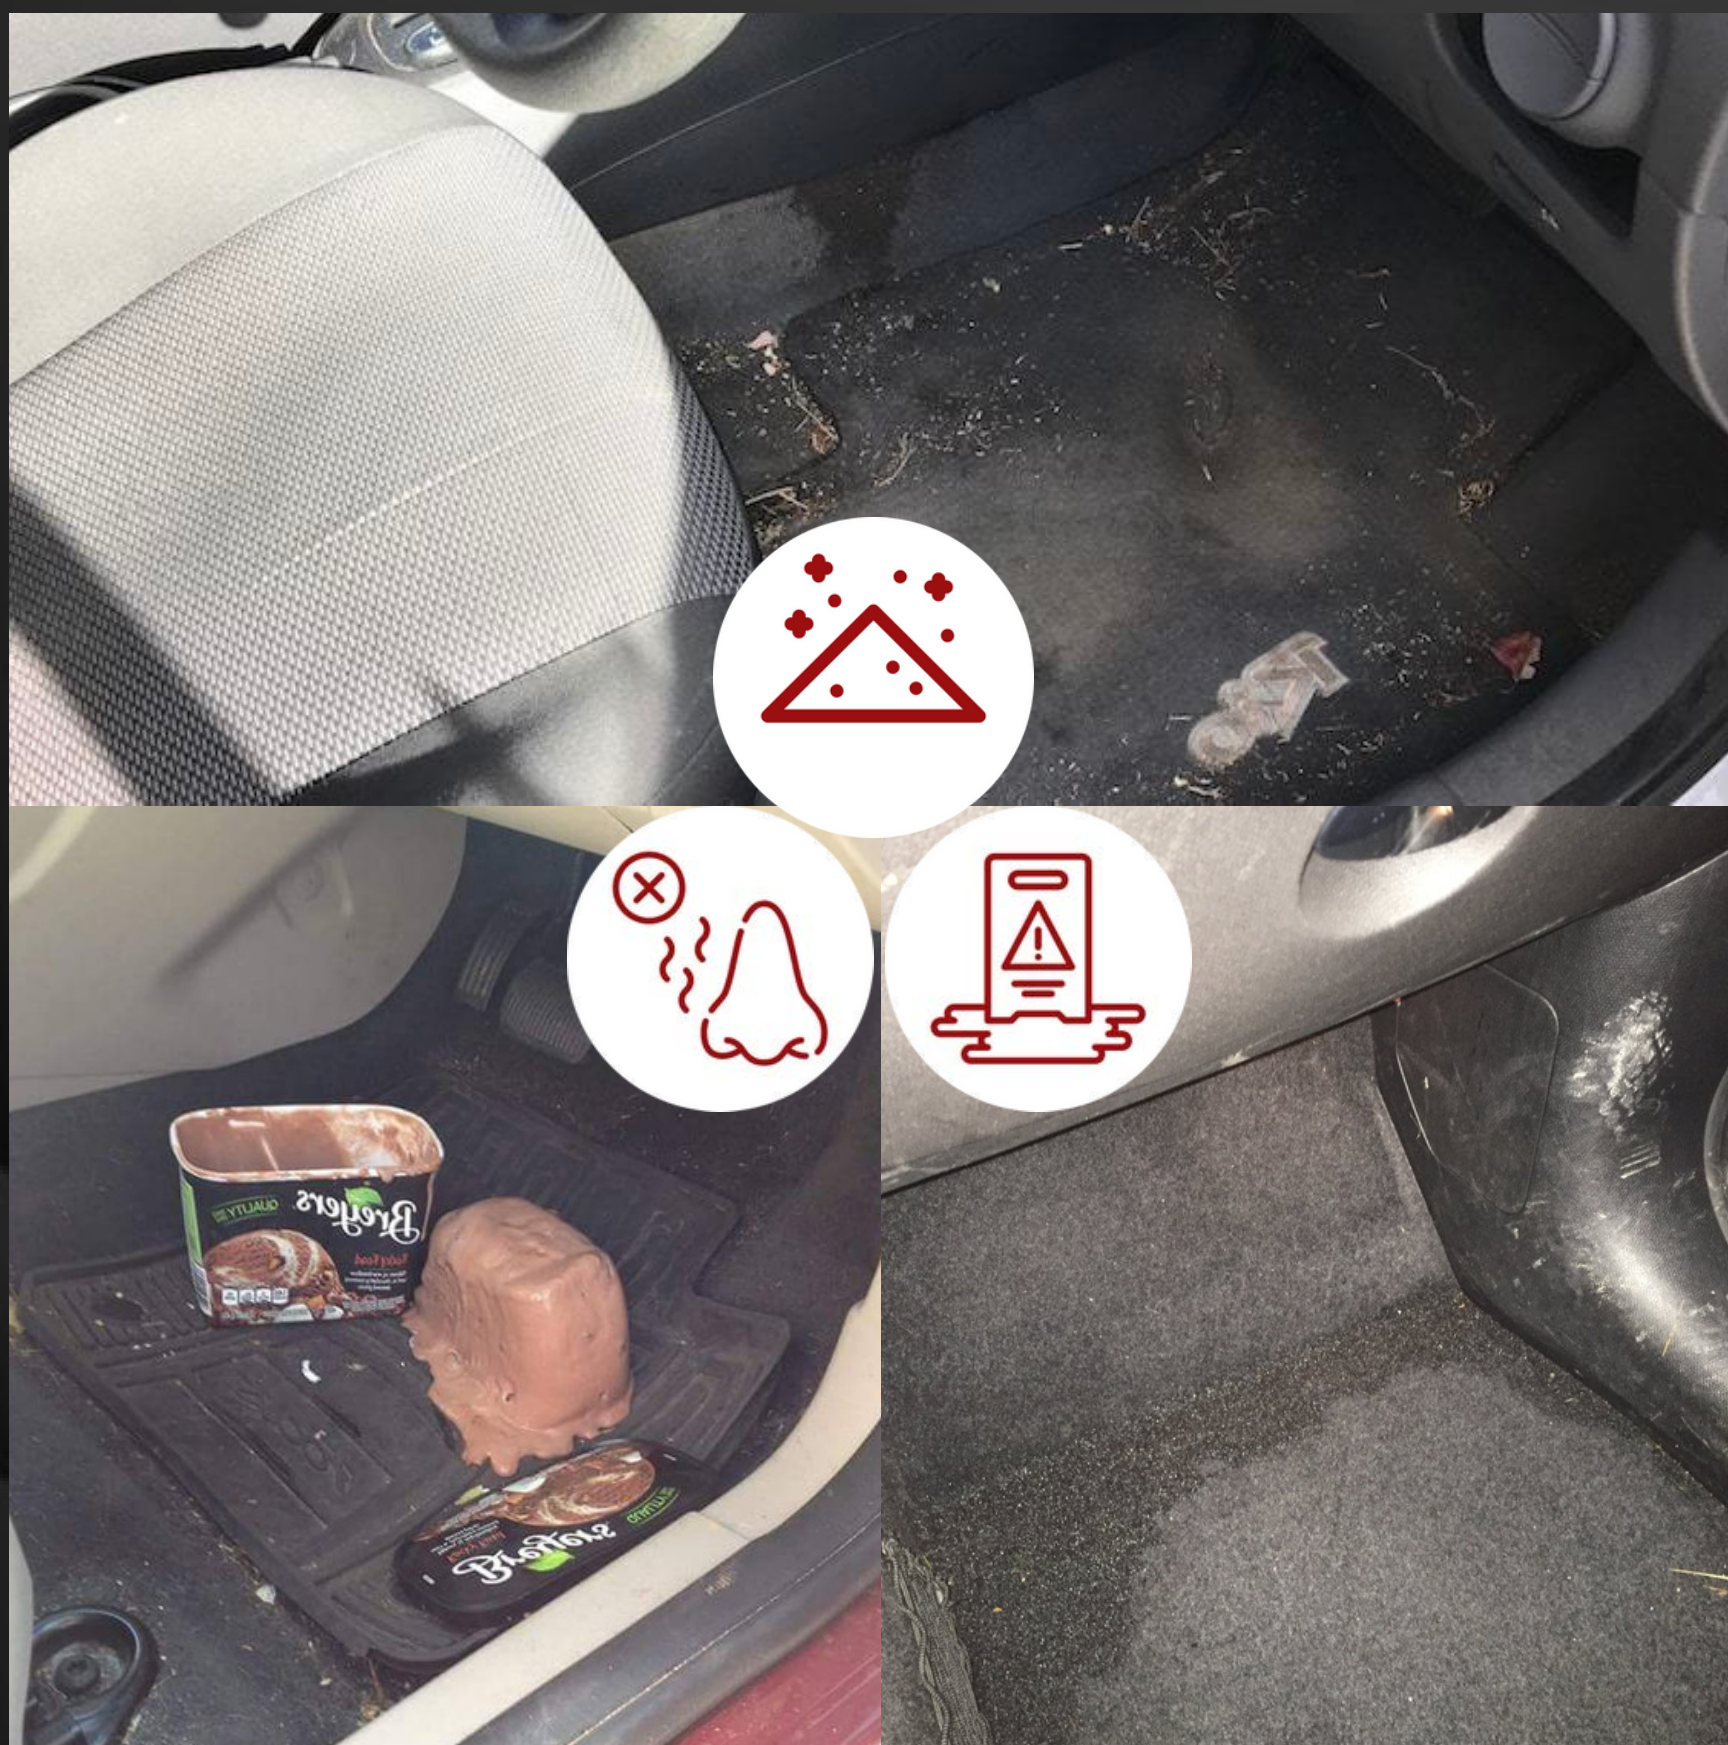

Traditional mat is soft, slippery and not designed to fit specific car model. Therefore, it is common to experience constant moving car mat which brings horrific driving experience.

What is worse? Unfortunate accidents frequently happen due to blocking of pedals by moving mat.

## **5** ***Keeps Dirt, Smell and Moisture***

It is common that drivers suffer in maintaining the hygiene of the car. Dirt, foul smell and moisture are always surrounding the car interiors due to incapability of traditional mats in providing total coverage to the floor.

# Our Features

*Representing state-of-the-art, OTTOMAN Car Mat provides you with extraordinary features which gives a breathtaking upgrade to your car and solves your problems, once and for all.*

# 1 *Craftsmanship*

To ensure tailored-fit and full coverage, we obtain the precise interior dimensions of the specific car model by hand-measuring every car model in the market.

Such precision moulding process takes 4-6 hours before it can be used in the production of a tailored-fit car mat.

## 2 *Full Coverage*

By having precise measurements to every single car model, we are capable of providing custom-made and full coverage mat designs for every single car owners.

Our raised mat edges designs not only bring an enhanced protection to the floor from dirt and spills, it also gives a greater spacious look to your car interior.

### ***3 Exclusive High Grade PU Leather***

After heavily invested in R&D, we provide you with our high-grade multi-layer PU leather based material and our exclusive texture design.

The material is produced through our top-notch hot press technology without any sewing in the middle that may jeopardize the waterproofing layer of the mat.

## **4** *Longer Lasting*

With our hot-pressed industrial PU leather base, Ottoman Car Mat is longer lasting than PVC mats.

With additional coating layers on top of the PU leather, the car mat is scratch resistance and can withstand high heat without deforming or releasing foul smell.

## 5 ***Water-proofing***

Our PU leather material and coating layers provide remarkable waterproofing and smell resistance features.

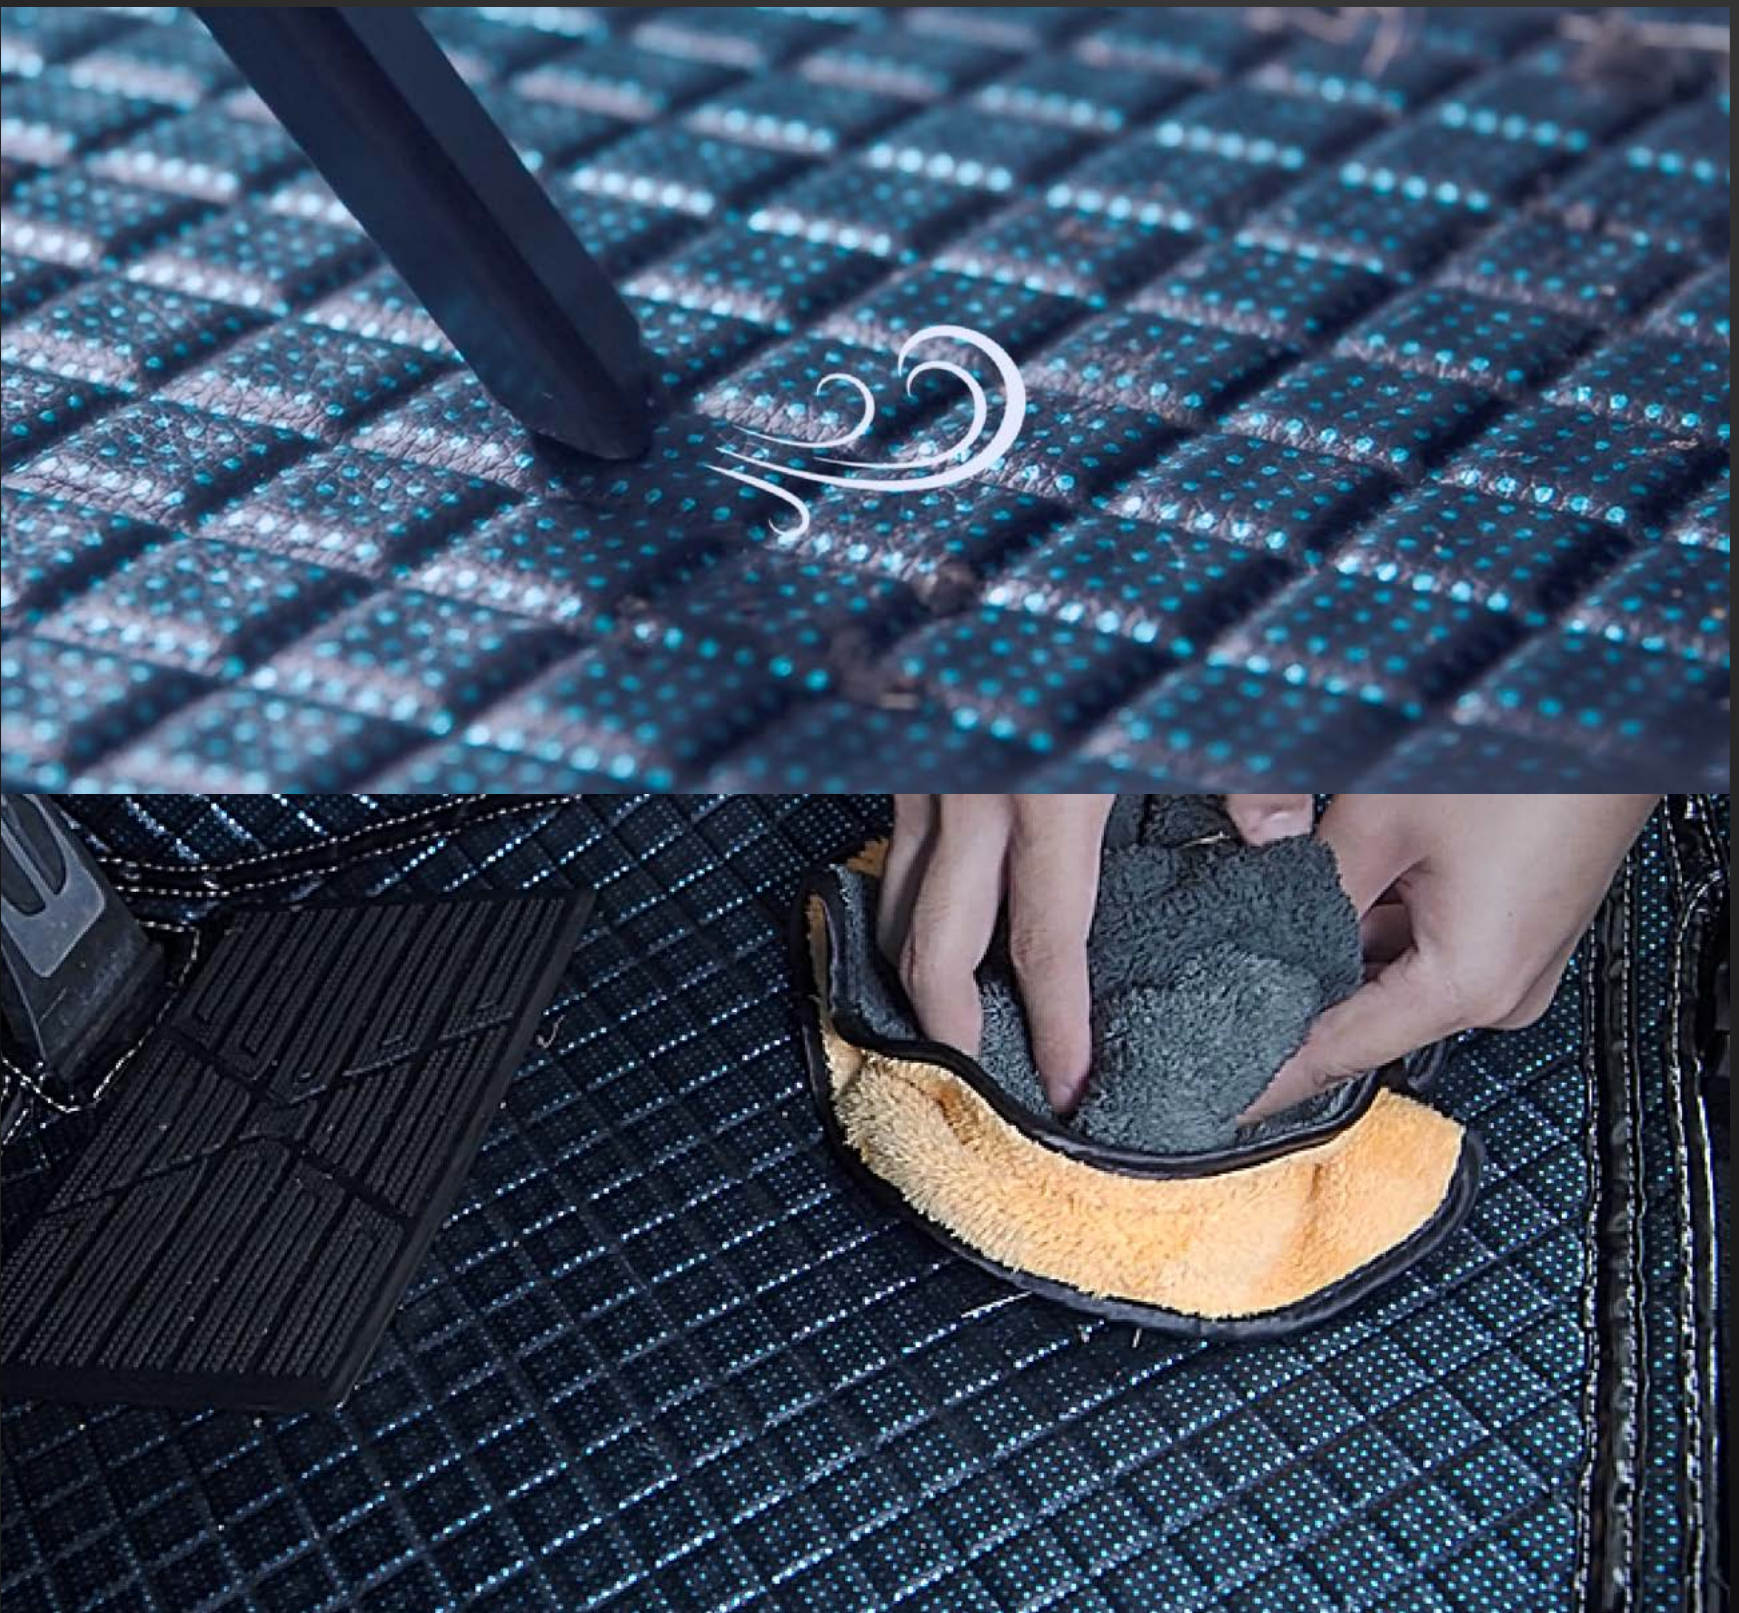

Afraid no more of spilled food & drinks!  
Simply wipe with wet cloth and you're ready to go!

## 6 *Easy Cleaning*

Clean your car mat in just 5 minutes! Our PU leather material and coating layer provide dust-prevention, water-proofing and smell-resistance feature.

To maintain your car mat occasionally, simply vacuum or wipe with wet cloth and it's clean as new.

It serves the purpose of protecting the interior of the car and it is easy to clean. I love the shocking red as it gives a good feel rather than having the normal grey carpet interior. Oh yes, another plus point, can find things easily once dropped. It's a good investment. The team provides hood service as well
